Happy New Year to you all!

Hope 2003 finds you well and ready to face the coming challenges as Uranus moves into Pisces. Help is at hand if you are still in recovery from 2002 in the form of some really good Mind, Body, Spirit titles. We've found that customers are often interested in areas we haven't previously covered, so as a new line for 2003 we're broadening the book list to include some of the best meditation, tarot, numerology, reincarnation and inspirational titles. Enjoy.

The Life You Were Born to Live

Both entertaining and revelatory, Dan Millman's book employs the ancient science of numerology to help you find your life purpose and determine the unique path you were born to follow. This expansive, much-praised system of personal discovery will help you to surmount inner hurdles, make the most of your abilities and carve a passage to self-knowledge and enlightenment. £13.99 plus postage.

The Art of War

This 2000-year-old masterpiece is one of the world's great books of strategy. Thomas Cleary's translation places it in the context of the Taoist spiritual tradition, and it will intrigue students of Eastern philosophy as well as people looking for the ultimate guide to management and leadership. £10.99 plus postage.

Meditations for Women Who Spend Too Much

This course extends to include men, and it has to be the ideal post-Christmas 'pick-me-up'. Extremely amusing and very helpful little book from Jane Bowles ('Astrology, Money and You') that examines our spending habits by sun sign. It provides interesting insights and pointers for enjoying our money more, with a quote to begin each sign and a meditation to conclude it. My current favourite is from the Aries section 'I want what I want when I want it.' Sounds fine to me! Great little book at £7.99 plus postage.

Journey of Souls

Through the development of his own age-regression technique, Dr. Michael Newton discovered how to take people beyond their past-life experiences to uncover a more meaningful soul experience. While in deep hypnosis, Newton's clients describe what the spirit world is really like, where we go and what we do as souls, and why we choose to come back in certain bodies. This book will help you understand the reasons behind events in your life and help you meet day-to-day personal challenges with a greater sense of purpose. £12.99 plus postage.

The Four Agreements

Don Miguel Ruiz, a Toltec Shaman from a long line of native healers, taught and practised as a surgeon for many years, until a near-death experience shook him into questioning his belief systems and returning to the ancient ancestral wisdom of the Toltecs. In this book he follows the Toltec path to Personal Freedom, and argues that everything we do is based on agreements we make - with ourselves, with other people, with God, and with life. Ruiz shows you how to recognise limiting agreements, and to replace them with the four simple agreements of the Toltec teachings. £10.99 plus postage.
