Hi everyone!

So much excitement here as we present the long awaited reprint of Howard Sasportas' masterpiece on Uranus, Neptune and Pluto. Howard was one of the great teachers of the astrological community and his untimely death left a gap that can never be filled: now you can read his kindly, wise words as he guides you through some of the most challenging periods of your life.

We're also offering lots of damaged books at virtually half price. These are books that have either travelled badly or have been returned from shops. They are all complete and some don't even really look damaged - just a bit tatty - but they all need good homes. Postage is charged at a flat rate as shown below.
