## Wessex goes Philosophical

There have been periodic murmurings from our customers regarding Ptolemy's Tetrabiblos and texts by Aristotle. We're always open to suggestions regarding the booklist, so here for your delectation and delight, and in most cases beautifully bound in hardback, are works from the late and great themselves:

### **ASTRONOMICA - MANILIUS £14.50**

The Roman poet gives a fascinating insight into the astrology of the classical era of which little evidence survives elsewhere. This challenging read is particularly interesting for its treatment of the myths of the constellations.

### **ON THE HEAVENS - ARISTOTLE £14.50**

The classic account of the astrological cosmos repays careful study. The beautiful discussion of the difference between the geocentric and heliocentric cosmos alone makes up for all the hard work.

### **ALCHEMY: SCIENCE OF THE COSMOS, SCIENCE OF THE SOUL - TITUS BURCKHARDT £12.99**

The beginning and end of all accounts of alchemy. Burckhardt gives a profound and lucid reading of the spiritual truths implicit in astrology.

### **COMMENTARY ON PLATO'S SYMPOSIUM OF LOVE - MARSILIO FICINO TRANS BY SEARS JAYNE £19.99**

Important text from Renaissance astrologer/philosopher that illustrates the many faces of love - essential reading for all serious astrologers.

### **COPERNICAN REVOLUTION: PLANETARY ASTRONOMY IN THE DEVELOPMENT OF WESTERN THOUGHT - THOMAS KUHN £11.50**

Written by a giant of modern scientific thought this highly readable work gives a detailed and sympathetic account of the mechanics of astrology's model of the solar system - and shows the error of so much that we were taught in school.

### **IAMBlichUS ON THE MYSTERIES AND LIFE OF PYTHAGORAS - THOMAS TAYLOR £21.00**

An awesome discussion of the mystical philosophy of which astrology is a part. Challenging and inspiring, this is a book to be read and reread over a life-time.

### **MYSTICAL ASTROLOGY ACCORDING TO IBN ARABI - TRANS BY TITUS BURCKHARDT £9.99**

A unique and challenging read from one of the greatest Sufi masters who ever lived. It provides the underlying spiritual principles lacking in most modern books on astrology.

### **TETRABIBLOS - PTOLEMY £14.50**

Unputdownable it isn't. But this is the most influential book in astrology's long history so grit your teeth and read it! Full of important practical astrology that really works.

### **PLANETS WITHIN - THE ASTROLOGICAL PSYCHOLOGY OF MARSILIO FICINO £14.99**

A beautiful book that rediscovers the psychology of Renaissance Italy and examines the thinking that has formed the basis of our psychological understanding today.

### **SEVEN MYTHS OF THE SOUL - TIM ADDEY £12.95**

In the stories of Persphone, Dionysius, Heracles, Apollo, Athene and Demeter, the trials, initiations and ultimate triumph of each human soul are outlined in mystical symbols. For those seeking soul wisdom this book provides the starting point for a cycle of profound meditations.

### **THE WORKS OF PLATO II £26.00**

This volume includes the *Timaeus* - the dialogue which is concerned with Plato's cosmological thinking and includes over 80 pages of notes on the *Timaeus*.

### **PROCLUS' COMMENTARY ON THE TIMAEUS OF PLATO, VOLUMES 1 AND 2 £24.00 EACH**

These are concerned with Proclus' expansion of thinking on the *Timaeus*. This set constitutes the major Neoplatonic work of cosmology and physiology and may be considered as the best surviving key to the understanding of the cosmic paradigm as taught by the Platonic tradition.

### **ESSAYS AND FRAGMENTS OF PROCLUS £17.00**

Contains many different treatises, the most important of which is *On Providence, Fate and That Which is in our Power*. It also includes Marinus' *Life of Proclus*.
