Superstar Signs
 Chrissie Blaze

Brilliant idea for a gift. Far more than just a sun sign or celebrity gossip book, Chrissie shows how to be a superstar in your own life, then illustrates it with several biographies of well known people for each sign - which further highlights the good and fun points of each sign as well as giving more insight into each sign. I loved this!

Great book for anyone who'd like to understand their children better. Includes a baby survival guide for the first year, and developmental stages up to 3 years described in terms of the relevant sun sign. Horary Astrology Re-Examined - Barbara Dunn £28.00 + p&p

This is a detailed and highly informative book, demonstrating clearly and unambiguously that traditional methods are applicable to all astrology. Barbara Dunn examines the methods by which astrologers of the past evaluated planetary strengths in order to make a judgement on a Question, Nativity, Election or any other type of chart. These evaluations provide a platform for judgement today, in just the same way as they did over a thousand years ago. An excellent source book and useful for any serious student of astrology.
